

PRODUCT INFORMATION SHEET

350-mm diamond blade

Product description

Diamond blade designed for cutting asphalt, asphalt with concrete, and concrete. High-quality laser welded--diamond segments, which ensures high quality cutting and durability of the blade. Diamond segments of increased height improve life of the blade.

Characteristics

- high diamond concentration adapted for cutting asphalt and concrete;
- perfect adjustment of optimum cutting speed and blade durability;
- body made of high-quality steel for an optimal circular motion and reduction of blade vibrations;
- lower energy consumption;
- high-quality laser welded diamond segments, which ensures high quality cutting and durability of the blade;
- inner hole: 25.4 mm;
- height of segment: 10 mm (3 segments enlarged to 15 mm);
- thickness of segment: 3.2 mm.
