

## KARTA PRODUKTOWA

### Power screwdriver bit Hex H5 50mm 2 PCS

#### Opis Produktu

Hex impact screwdriver bits with increased strength compared to standard screwdriver bits. Specially designed geometry with a narrowed profile, twisting during operation absorbs maximum torque. Thanks to this, both the screwdriver bit and the screw itself are protected against damage. For use in impact screwdrivers or drill-screwdrivers, which significantly accelerate the work. Especially recommended for high-frequency and heavy-duty applications. Necessary for demanding and long-term workshop works as well as renovation, construction or carpentry.

#### Charakterystyka

- hexagonal profile 1/4";
- made of the highest quality S2 alloy steel, which in combination with the hardening process guarantees maximum strength and at the same time high flexibility;
- cold-hardened with a hardness of 58-61 HRC;
- resistant to deformation and cracking;
- elongated profile with a length of 50mm facilitates work in hard-to-reach places;
- color code makes it easy to quickly identify the type of screwdriver tip;
- made in accordance with DIN 3126;
- packed in 2 pcs. in practical reusable packaging, which allows for convenient storage, reducing the risk of their loss.
