

## PRODUCT INFORMATION SHEET

### Profile snips with protractor

#### Product description

Snips make it possible to precisely cut plastic, wood or polystyrene profiles. They have a built-in protractor that ensures an even cut at the right angle. They are recommended especially for finishing works. They will find application in construction and crafts.

#### Characteristics

- Edges of the snips with increased resistance to cracking and chipping, made of SK5 high carbon spring steel;
- possibility of cutting at an angle of 0°, 30° and 45°;
- total length: 220 mm;
- non-slip coating of the handles prevents the tool from slipping and it increases the comfort of work.
