

PRODUCT INFORMATION SHEET

Battery pump for manual suction cups

Product description

A battery pump for hand suction cups is a practical tool that can be used for a variety of handling, mounting and smooth surface handling tasks. It aspirates air out of the suction cup, creating a strong and stable vacuum. Thanks to this, it provides excellent adhesion and enables safe handling, mounting and manipulation of various smooth objects, such as glass, tiles or panels. It can be used in both electric and manual mode. Equipped with a USB-C connector, it provides convenience and flexibility in application, becoming an indispensable tool for professionals. The battery pump can be used with most manual suction cups on the market.

Characteristics

- voltage: 3.6 V;
- battery capacity: 1.2 Ah;
- battery type: Li-Ion;
- suction power: 150 kg/190 kg;
- pressure: 60 Kpa;
- charging connector: USB-C.
