

## PRODUCT INFORMATION SHEET

### Hybrid Pliers Extended

#### Product description

The universal 10 in 1 tool combining many functions enables the execution of various tasks conveniently and quickly. The milled tip of the pliers enables clamping soft materials, holding objects of up to 50 mm in diameter, squeezing, twisting, pulling and gripping. Additionally, their round shape enables wire looping. Thanks to the asymmetric grooves, the round piece holder enables a firmer grip of an object or a nut. Thanks to precisely cut blades, the electrical wire insulation stripper does not damage the core. Hard blade enables easy cable cutting. The cutter allows you to shorten rivets of sizes 6-32 and 8-32. The press tool ensures permanent processing of 0.75-1.5 and 1.5-2.5 mm<sup>2</sup> electrical cable end-sleeves. High-quality, evenly hardened chromium-vanadium steel enables intensive use of the pliers for heavy-duty work requiring the application of high pressure. The advanced induction heat treatment process provides the tool with high hardness that prevents the blades from becoming blunt. The well-thought-out geometry makes cutting easier. Finely ground, hard working surfaces and teeth enable precise work. The ergonomic handle linings, made of damage-resistant and soft TPU material, provide great comfort during long work.

#### Characteristics

insulation stripping range AWG - 8 / 10 / 12 / 14 / 16 / 18; insulation stripping range - 1 / 1.3 / 1.6 / 2 / 2.6 / 3.2 mm; electrical terminal clamping range - 0.75-1.5 / 1.5-2.5 mm<sup>2</sup>; screw thread size UNC - 6-32, 8-32; jaw hardness - 43-48 HRC; blade hardness - 58-63 HRC; pliers material - CRV 60 steel; handle lining material - TPE; length - 200 mm; width - 55 mm, functions 1. holding, 2. squeezing, 3. shearing, 4. gripping, 5. bending, 6. insulation stripping, 7. terminal connection, 8. screw and rivet shortening, 9. tightening, 10. wire looping.
