

PRODUCT INFORMATION SHEET

HSS Circular Metal Disc 80 mm, 1.25 mm Teeth

Product description

The disc is designed to be fitted to a multitool, such as the HT2E230-0MT. Can be used for cutting ferrous and non-ferrous metals. The semi-circular shape allows for long surface cuts or cutting in tight corners and spaces. The high-speed steel is characterised by high hardness, wear resistance and heat resistance. The universal attachment of the working tip fits most multitools on the market.

Characteristics

- intended for: ferrous and non-ferrous metals,
- PVC and wood;
- blade width - 80 mm;
- tooth size - 1.25 mm;
- material - HSS/M2 steel.
