

PRODUCT INFORMATION SHEET

Ceramic saw blade, carbide coating 35 mm

Product description

The blade is designed to be fitted to a multitool, such as the HT2E230-0MT. It can be used for sanding of stoneware and ceramic tiles. The high-grade HM/TCT tungsten coating allows for efficient cutting and ensures tool durability. The blade material provides flexibility and resistance to damage. The narrow width and triangular shape also allows for work in hard-to-reach areas such as corners. The universal attachment of the working tip fits most multitools on the market.

Characteristics

- intended for: sanding of stoneware and ceramic tiles;
- blade width - 35 mm;
- material - steel with HM/TCT tungsten carbide layer.
