

PRODUCT INFORMATION SHEET

Workbench

Product description

The adjustable metal workbench provides work-related versatility.

The 4-stage adjustment for changing the angle of the working surface, ensures ergonomics and optimal working conditions.

7-level adjustment of the height by means of a foot, allows the tool to be adapted to varying needs.

Smooth adjustment of the position of the support beams, increases the mounting area. With a squeeze, the handle can be adjusted to accommodate uneven edges of objects.

8 sliding clamping jaws, provide additional, secure clamping of workpieces of various shapes such as pipes, block pins, plates.

The 100 kg, maximum load of the tabletop, allows for working with heavy objects.

The folding design gives the tool a compact size that makes it easy to store and transport.

Sturdy steel and resistant and lightweight aluminium, used in the tabletop and table structure, guarantee the robustness and durability of the tool.

Anti-skid rubber feet provide stability for the work.

The length and angle measurements printed on the bar make the work of trimming and assembling workpieces easier.

Characteristics

- Size: 60 (W) x 57 (L) x 77-107 (H) cm.
- Height range: 76-106 cm Top tilt range: 0-80°.
- Beam gap range: 0-17.5 cm.
- Maximum load capacity: 100 kg.
- Material: steel and aluminium.
- Weight: 12.5kg.
