

PRODUCT INFORMATION SHEET

Miter saw table

Product description

The mobile, folding work table can be used as a base for mitre and band saws from most manufacturers thanks to its universal holders.

Sturdy wheels make it easy to move the unit over uneven surfaces, stairs and kerbs. The low weight and handle further improve the mobility of the unit.

The sturdy yet lightweight metal construction is made of steel and aluminium.

100 kg, maximum load, allows for working with massive objects.

Tool bins and a metal grid on the tabletop keep tools organised.

Extendable, two-axis adjustable roller supports allow for working with long beams of varying thicknesses.

Flexible supports on the legs enable workpieces to be placed on them.

Foldable design gives the tool a compact size for easy storage.

Anti-skid rubber feet provide stability for the work.

Characteristics

- Bracket spacing range - 109 - 167 cm.
- Working height range - 61.5 - 82 cm.
- Width: 70 cm.
- Maximum load capacity: 100kg.
- Weight: 9.6kg.
- Construction material: steel, aluminium.
- Wheel material: plastic, rubber.
